

# MODIS

**MOD13C2: 16 Day Normalized Difference Vegetation Index (NDVI)**

**MCD12C1: Yearly Land Cover Type**

**MOD11C3: Monthly Daytime Land Surface Temperature & Emissivity**

The Moderate Resolution Imaging Spectroradiometer (MODIS) instrument is found onboard the Terra and Aqua satellites. It views the entire surface of Earth every one to two days and the data collection temporally spans from 2000 until present.
